SUMMARY

Full-stack developer with expertise in **React.js (Frontend)** and **Node.js/Spring Boot (Backend)**. Passionate about building scalable web applications with modern architectures, RESTful APIs, and databases. Strong problem-solving skills and a track record of delivering end-to-end projects.

WORK EXPERIENCE

Front-End Developer, *Freelance & Personal Projects* 01/2023 – Present

- Developed full-stack applications using **React.js + Node.js/Spring Boot**, ensuring seamless frontend-backend integration.
- Managed global state using Redux, styled UIs with Tailwind CSS and Bootstrap.
- Used Git and GitHub for version control and collaboration.
- Built secure RESTful APIs with **JWT** authentication and optimized database queries for MySQL/MongoDB.
- Applied responsive design techniques and followed accessibility best practices.

EDUCATION

Bachelor of Information Technology, *Egyptian E-Learning University (EELU)* 10/2023 – 06/2025
GPA: 3.3

- | | |
|------------------------|---------------------|
| • HTML5 | • CSS3 |
| • JavaScript (ES6+) | • type script |
| • Java | • React.js |
| • Redux.js | • Next.js |
| • Node.js | • Spring-boot |
| • Bootstrap | • Tailwind CSS |
| • Git | • GitHub |
| • VS Code | • MySQL |
| • MongoDB | • Responsive Design |
| • UI/UX Best Practices | • Postman |
| • RESTful APIs | |

PROJECTS

Appointment Doctor Web App

- **Frontend:** React.js, Redux Toolkit, Tailwind CSS
- **Backend:** Node.js + Express.js, Firebase Auth, MongoDB

- A medical appointment booking system for users to find and book doctors.
- User authentication with Firebase
- Protected routes with React Router
- Redux Toolkit for state management
- Responsive UI using Tailwind CSS

E-Commerce Website (Full-Stack)

- **Frontend:** React.js, Redux, Tailwind CSS
- **Backend:** Node.js, MongoDB
- Product catalog with filters.
- Payment integration (Stripe/PayPal).
- Admin dashboard for inventory management.
- **Admin Panel:** (*Backend Focus*)
- Product Management:
Add/Edit/Delete products (CRUD operations via RESTful APIs).
Bulk upload via CSV/Excel.
- Order Management:
View all orders with filters (status, date).
Update order status (e.g., "Shipped," "Cancelled").

Portfolio Website

- A responsive and elegant portfolio to showcase your skills and projects.
- Modern section-based layout
- Smooth navigation and design animations
- Developed using HTML, CSS, and vanilla JavaScript

Eduction Website

- An interactive educational web application built using React.js, designed to provide users with a clean and dynamic platform to access educational content.

The site features a responsive and modular front-end architecture, with seamless page navigation using React Router.

- Technologies Used:

React.js - HTML5 – CSS3 – JavaScript - React Router - Git – GitHub
