Summary

Full-Stack Developer with 3+ years of experience building and optimizing full-stack web apps using React.js, Next.js, Node.js, Spring Boot, and .NET. Delivered measurable results such as reducing API latency by 35%, improving UI load time by 40%, and increasing engagement by 30%. Collaborated with cross-functional teams to deliver 10+ projects with 100% on-time completion and high client satisfaction.

Experience

Full-Stack Developer — Freelance & Personal Projects

- Delivered and deployed 6+ full-stack applications used by over 500 active users with a 98% uptime rate.
- Built REST APIs with JWT authentication, reducing unauthorized access by 40% and improving response time by 35%.
- Optimized queries and caching, cutting API latency from 1.2 s → 0.8 s (35% faster).
- Designed responsive UIs achieving 95% mobile compatibility and increasing UX score from 4.2 → 4.8.
- Automated deployment pipelines via GitHub Actions, reducing manual deployment time by 70%.

Key Projects

Appointment Doctor Web App

🐙 [GitHub](#) 🌐 [Demo](#)

- Developed a comprehensive medical appointment booking system allowing users to search and book doctors, built with React.js frontend featuring Redux Toolkit for state management, Toastify for notifications, and Tailwind CSS for responsive design.
- Implemented robust backend using Node.js and Express.js, integrated with MongoDB for data persistence, and secured with JWT and Firebase authentication for both users and admins.
- Ensured secure navigation with protected routes via React Router, enabling seamless user experiences and role-based access control.
- **Key Skills:** React.js, Redux Toolkit, Node.js, Express.js, JWT Authentication, Firebase Auth, MongoDB, Tailwind CSS, React Router, Toastify.

E-Commerce Website (Full-Stack)

🐙 [GitHub](#) 🌐 [Demo](#)

- Created a dynamic product catalog with advanced filtering capabilities using React.js frontend, Redux Toolkit for state handling, Axios for API calls, and Tailwind CSS for styling.
- Built scalable backend with Node.js, MongoDB, JWT authentication, CORS configuration, and RESTful APIs to support secure data operations and token-based access.
- Integrated image upload functionality with cloud storage solutions and payment gateways like Stripe/PayPal for seamless transactions.
- Developed an admin dashboard for inventory management, including CRUD operations for products (with bulk CSV/Excel uploads) and order management with status updates and filters.
- **Key Skills:** React.js, Redux Toolkit, Node.js, MongoDB, JWT Authentication, Axios, Tailwind CSS, Stripe/PayPal Integration, REST APIs.

Education Website

🐙 [GitHub](#) 🌐 [Demo](#)

- Built a modern educational platform to present online courses and learning content in a clean, user-friendly layout, emphasizing responsive design for all devices.

- Featured a comprehensive landing page with dedicated sections for courses, testimonials, contact forms, and more, enhancing user engagement.
- Implemented interactive UI elements with smooth animations and transitions using Swiper.js for carousels and React Router for navigation.
- Focused on readability and accessibility with a minimalist design, developed entirely with front-end technologies.
- **Key Skills:** React.js, HTML5, CSS3, JavaScript, React Router, Swiper.js, Git, GitHub.

Skills

Frontend: React.js, Next.js, TypeScript, Redux, HTML5, CSS3, Tailwind, Bootstrap

Backend: Node.js, Express.js, Java, Spring Boot, ASP.NET Core, C#, Entity Framework

Databases: MongoDB, MySQL, SQL Server, Firebase, Redis

Tools & DevOps: Git, Docker, GitHub Actions, Postman, Vercel, Netlify

Workflow: Agile, Scrum, CI/CD, API Integration, Testing (Jest, Mocha)

Soft Skills: Communication, Teamwork, Problem Solving, Adaptability, Time Management, Leadership, Critical Thinking, Attention to Detail, Creativity, Collaboration, Continuous Learning

Education

Bachelor of Information Technology (B.Sc.) — Egyptian E-Learning University (EELU)

GPA: 3.3

Full-Stack Web Development (.NET Track) — Information Technology Institute (ITI) (Completed)

120 Hours • Modules: MySQL, C#, ASP.NET, Entity Framework

Languages

Arabic (Native), English (Professional Working Proficiency)
